Old tennis courts

NVC 2018

Label, Description

MG1: Old Fairway - *Arrhenatherum elatius* (false oat grass) - widespread mesotrophic grassland community in lowland Britain. Cut + clear/balanced grazing/mow in summer for hay, graze late summer through autumn. Push back woodland to avoid shading and leaf litter.

MG7: Amenity Grassland - *Lolium perenne* leys - developing into U1a on free draining, parched, sandy soil. Heavy use and mowing regime led to exposed soil and short sward - *Poa bulbosa* (bulbous meadow grass) recorded here in 2018.

U4a: Cricket Pitch - *Festuca ovina* - *Agrostis capillaris* - *Galium saxatile*, species rich grassland related to U1b.

NVC 2018

Label, Description

 M23b: Species poor, dominated by *Molinia* (purple moor grass) on moisture retentive soils - cut + clear/balanced grazing regime to avoid dense *Molinia* thatch. Where reptiles present - cut + clear Nov-Jan, on 3 year rotation.

 M25a: *Erica tetralix* (cross leaved heath)

 M25b: *Anthoxanthum odoratum* (sweet vernal grass)

NVC 2018

Label, Description

W10c: *Quercus robur* - *Pteridium aquilinum* - *Rubus fruticosus* woodland, *Hedera helix* woodland

W16: *Quercus* sup - *Belula* spp, *Deschampsia flexuosa* woodland. *Quercus robur* sun community

W1: *Salix Cinerea*

W24/W25: *Rubus fruticosus* agg - *Holcus lanatus* underscrub

W24: *Rubus fruticosus* agg - *Holcus lanatus* underscrub

W25: *Pteridium aquilinum* + *Rubus* sp, associated with woodland margins

W6b: *Atrius glutinosa* - *Urtica dioica*, *Salix fragilis* sun community
