NVC 2018

Label, Description

MG1: Old Fairway - *Arrhenatherum elatius* (false oat grass) - widespread mesotrophic grassland community in lowland Britain. Cut + clear/balanced grazing/mow in summer for hay, graze late summer through autumn. Push back woodland to avoid shading and leaf litter.

MG7: Amenity Grassland - *Lolium perenne* leys - developing into U1a on free draining, parched, sandy soil. Heavy use and mowing regime led to exposed soil and short sward - *Poa bulbosa* (bulbous meadow grass) recorded here in 2018.

U4a: Cricket Pitch - *Festuca ovina* - *Agrostis capillaris* - *Galium saxatile*, species rich grassland related to U1b.
