

#### NVC 2018

##### Label, Description

M23b: Species poor, dominated by *Molinia* (purple moor grass) on moisture retentive soils - cut + clear/balanced grazing regime to avoid dense *Molinia* thatch. Where reptiles present - cut + clear Nov-Jan, on 3 year rotation.

M25a: *Erica tetralix* (cross leaved heath)

M25b: *Anthoxanthum odoratum* (sweet vernal grass)
